

Even More Efficient.

The Revolutionary
Swiss Die-Cutter™ B4

Swiss Die-Cutter™ B4

Maximum Performance and Digitalisation

Performance

The Berhalter Swiss Die-Cutter™ B4 embodies the DNA of the Berhalter high-performance die-cutting machines and makes its strongest statement in terms of technology, intelligence and performance. The currently most powerful and innovative high-performance die-cutting machines in exactly the design you need for your production.

Excellence

Whether you want to die-cut flat packaging lids, deep-drawn lids, paper labels or IML labels for medium to higher runs, you can meet all requirements and increase your profit margin with the Swiss Die-Cutter B4. Top-class quality at the lowest possible production costs.

Maximum performance and digitalization.

Key Facts

227'000

lids & labels per hour
tool Ø 75.5 mm

500

strokes/min
maximum speed

13

servo drives
for optimal quality

450 x 510

tool area
for maximal cavities

100

m/min
processing speed

1.9

consumption
only 1.9 kWh
